

Cafe de Coral Group Admires Infrasys For Its High Quality POS Tools and Applications

Which Are Always Fit Its Development Plan

"With the implementation of Infrasys' Gourmate POS system with our own Business Management System, we are very satisfied and confident with Infrasys and its products."

Helen Li

Director of Professional Logistics

Cafe De Coral Holdings Limited

The Largest Chinese Fast Food Chain Satisfied With Infrasys' Products

With revenues of H.K.\$2.72 billion (U.S. \$34.8 million), Cafe de Coral Group, based in HK, is the largest publicly listed Chinese Fast Food restaurant group in the world with hundreds of outlets in Asia Pacific region and North America. The management of quick service restaurants chain and strategic diversification of its catering business have developed CDC into a global market leader in the field.

Beyond the household name of Cafe de Coral and New Asia

Dabao, it successfully achieves a diverse earning base through establishing different specialty restaurant brands to widen the market exposure. Well-known specialty restaurants include the Spaghetti House, Bravo le Cafe, Bistro M and Ah Yee Leng Tong, as well as its institutional catering business with Asia Pacific Catering are members of the Group's family.

Over 90% of the fine dining restaurants under CDC group are now using Infrasys' POS solutions. The number of outlets supported by Infrasys will increase steadily with the expansion plan of CDC to enter the China market, as well as the increasing demand of APC outlets to implement Infrasys' product to enhance their productivity, effectiveness and overall performance.

"Infrasys is one of the top POS software developers in Hong Kong."

Helen praised Infrasys for its high quality products and the helpful assistance for years.

Outstanding Products And Services

Chosen by many worldwide renowned catering groups and 5 stars hotel chains, Infrasys' products have

various strengths that outfight the competitors. "Gourmate Restaurant Management System has all the necessary features to support restaurant mode food serving requirements such as kitchen printing, table numbering and sequence of delivering different courses of a meal. The system is user-friendly and reliable," Ms. Li said.

"CDC has also evaluated other POS products available in the market but Gourmate is found to be more versatile and robust than the other packages," Ms. Li expressed.

To CDC, the creditability of Infrasys as a reliable and helpful IT partner bases on its positive attitude towards on-going development of POS related systems to add value to customers in different aspects.

Working closely with Infrasys to enhance customer satisfaction and expand the VIP base, CDC has started the trial run of Infrasys' WorldBonus Customer Loyalty Program to generate and redeem bonus points at POS since 2003.

Hi-tech Solutions Speeds Up Success Of The Group

CDC enjoys the hi-tech and all-round solutions from Infrasys to raise the performance of its outlets. Infrasys is not only a POS vendor but a business partner to CDC to provide effective and efficient business solutions for CDC's future development.
